

OUR TRUSTED PARTNERS

ABOUT US

HIGHMARK brings efficiency to the built environment. We work with the best global partners, promoting the best building technologies and practices to support:

SUSTAINABILITY

ELECTRIFICATION

DECARBONIZATION

COST SAVINGS

We do this by rigorously vetting the best technologies, embracing new innovations and challenging the status quo. We strive to continuously improve and evolve to stay at the forefront of sustainable practices.

OUR TECHNOLOGIES

Mechanical technologies

- 100% OA systems
- Air purifiers
- Air towers
- Boilers
- Chillers
 - Air-cooled chillers
 - Water-cooled chillers
 - Modular chillers (15 HP circuit)
- Condenser water filtration
- Custom AHUs and DX units
- Dedicated outdoor air systems (DOAS)
- Desiccant dehumidification
- Dry coolers
- Energy recovery ventilators (ERVs)
- Fan coil units (FCUs)
- Energy metering
- Heat exchangers
 - Brazed plate
 - Plate and frame
 - Shell and tube
- Heat pumps
 - Air to air
 - Air to water
 - Water to water
 - Air/water to domestic water
 - Geothermal
- Humidifiers
- Hybrid heat pumps
- Ice/energy storage
- Indoor pool dehumidification
- Prefabricated central plants
- Modular chiller/boiler plants
- Packaged rooftop units

- Pumps
 - HVAC and water supply pumps
 - Pump packages
- Radiant cooling/heating systems
- Perimeter heaters
- Underfloor air distribution (UFAD)
 - Diffusers
 - Trough
 - Trench heaters
- Valve packages
- Water-cooled, self-contained units
- Water source heat pumps

Plumbing technologies

- Domestic water booster packages
- Domestic water pumps
- Double-wall heat exchangers
- Electric tankless point-of-use water heaters
- Heat pump water heaters
- Point-of-entry domestic water filtration
- Rainwater harvesting
- Sewage ejector pumps
- Tanks, valves and other specialties
- Wastewater energy recovery
